

Equipments for Lighting Projects

LIGHT WITH EMOTION

Presentation:

SOLID LIGHT has the best partnerships with factories all over the world in order to better serve the prescriber. They generally work with Lighting designers, electrical engineers and particularly with Architects.

Our work begins with the project developer, ending much after delivery of lighting fixtures. SOLID LIGHT Performs a job of excellency in the fixtures definition phase, but also in the supplying phase and long after delivery.

SOLID LIGHT Assumes it self as THE ALTERNATIVE, based in its team members with more than 27 years in Lighting business, working with more than 200000 technical and decorative lighting fixtures references

SOLID LIGHT have been committed with several important projects. Some of them may be seen at www.solidlight.com, but the most recent one was DELOITTE, which we present here with some pictures selection. Part of the lighting equipments were supplied indirectly by SOLID LIGHT, due to its Consulting work with the Lighting Designer of the project; LIGHTS ON.

Architecture: OPENBOOK

Lighting Designer e Lighting Project: LIGHTS ON
